Project Name	Smart Agricultural Production Optimization Engine (OptiCrop)
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 (Identify Need & Collect Data)	Stage 2 (Analyze & Get Recommendation)	Stage 3 (Decision & Take Action)
Actions <i>What does the customer do?</i>	- Collect soil data (NPK, pH) - Check weather conditions - Look for suitable crops	- Enter data into system - Run analysis - View crop recommendations	- Review recommended crops - Compare crop options - Decide and start farming
Touchpoint <i>What part of the service do they interact with?</i>	- Soil testing labs - Weather reports - Agricultural experts	- OptiCrop system/website - Data input form - ML model & database	- Recommendation dashboard - Results & reports - Final crop selection
Customer Thought <i>What is the customer thinking?</i>	- Which crop is best for my field? - Is my soil healthy? - How to improve yield?	- Will the system give accurate results? - Is the data I entered correct? - Will I get the best crop?	- This recommendation looks useful. - Which crop gives better yield and profit? - I am ready to start farming.

Customer Feeling <i>What is the customer feeling?</i>	• Confused • Worried • Uncertain	• Hopeful • Curious • Interested	• Confident • Satisfied • Motivated
Process Ownership <i>Who is in the lead on this?</i>	• Farmer • Soil Testing Lab • Agricultural Expert	• OptiCrop System • Database • ML Model	• Farmer • Decision Maker • End User
Opportunities <i>How can we improve this stage?</i>	• Faster soil testing • Easy access to data • Better awareness for farmers	• Improve prediction accuracy • Faster analysis • User-friendly interface	• More accurate recommendations • Better crop variety suggestions • Higher productivity & profit
